# Author index

Albitz, R., see Nilius, B. (1014) 259
Alexandre, A., see Deana, R. (1014) 203
Ambudkar, I.S., see Maki, T. (1014) 73
Amoh, T., see Kozaki, Y. (1014) 120
Andreoni, A., Colasanti, A., Malatesta, V., Mastrocinque, M., Roberti, G. and Von Kisslinger, A.
Cell photosensitization by 5-iminodaunomycin activated with red light (1014) 8
Atkinson, S.J., see Thomson, B.M. (1014) 125

Barrett, P., see Cummings, A. (1014) 319
Baum, B.J., see Maki, T. (1014) 73
Baverel, G., see Vincent, N. (1014) 184
Beidler, D.R., Candia, A.F., Chernin, M.I. and Novak, J.F.
Resistance to pyrazofurin and 6-azauridine in normal MC3T3-E1 murine osteoblasts (1014) 101
Ben-Naim, M., see Chajek-Shaul, T. (1014) 178
Bittar, E.E., see Xie, H. (1014) 207
Boland, R., see Drittanti, L. (1014) 112
Boscoboinik, D. and Epand, R.M.
Increased cellular internalization of amphiphiles in a multidrug-resistant CHO cell line (1014) 53
Brummell, D.A. and Maclachlan, G.A.
Calcium antagonist interferes with auxin-regulated xyloglucan glycosyltransferase levels in pea membranes (1014) 298
Burlini, N., Morandi, S., Pellegrini, R., Tortora, P. and Guerritore, A.
Studies on the degradative mechanism of phosphoenolpyruvate carboxykinase from the yeast *Saccharomyces cerevisiae* (1014) 153

Candia, A.F., see Beidler, D.R. (1014) 101
Cantoni, O., Cattabeni, F., Stocchi, V., Meyn, R.E., Cerutti, P. and Murray, D.
Hydrogen peroxide insult in cultured mammalian cells: relationships between DNA single-strand breakage, poly(ADP-ribose) metabolism and cell killing (1014) 1
Cattabeni, F., see Cantoni, O. (1014) 1
Ceccarelli, D., see Masini, A. (1014) 133
Cerutti, P., see Cantoni, O. (1014) 1
Chajek-Shaul, T., Halimi, O., Ben-Naim, M., Stein, O. and Stein, Y.
Phosphatidylinositol-specific phospholipase C releases lipoprotein lipase from the heparin releasable pool in rat heart cell cultures (1014) 178
Chan, H.-C., Glockner, J.F. and Swartz, H.M.
Oximetry in cells and tissues using a nitroxide-liposome system (1014) 141
Chang, C.H., see Chang, T.-M. (1014) 229
Chang, T.-M. and Chang, C.H.
Diacytosis of asialoglycoprotein in isolated hepatocytes is dependent on the structure of ligand and cellular distribution of the receptors (1014) 229
Chernin, M.I., see Beidler, D.R. (1014) 101
Clark, J.F. and Dillon, P.F.
Mechanical and metabolic toxicity of 3-(trimethylsilyl)propanesulfonic acid to porcine carotid arteries (1014) 235
Colasanti, A., see Andreoni, A. (1014) 8
Cooper, G.J.S., Day, A.J., Willis, A.C., Roberts, A.N., Reid, K.B.M. and Leighton, B.
Amylin and the amylin gene: structure, function and relationship to islet amyloid and to diabetes mellitus (1014) 247
Corongiu, F.P., see Masini, A. (1014) 133
Crawford, N., see Crook, M. (1014) 26
Crook, M. and Crawford, N.
Electrokinetic, analytical and functional heterogeneity of circulating human platelets: separation of subpopulations by continuous flow electrophoresis after taxol stabilization (1014) 26
Cummings, A., Barrett, P. and Sommerville, J.
Multiple modifications in the phosphoproteins bound to stored messenger RNA in *Xenopus* oocytes (1014) 319

Day, A.J., see Cooper, G.J.S. (1014) 247
Deana, R., Ruzzene, M., Doni, M.G., Zoccarato, F. and Alexandre, A.
Cyclic GMP and nitroprusside inhibit the activation of human platelets by fluoroaluminate (1014) 203
De Boland, A.R., see Drittanti, L. (1014) 112
Denton, R.M., see Rutter, G.A. (1014) 263
Diede, H.E., see Stremmel, W. (1014) 108
Dillon, P.F., see Clark, J.F. (1014) 235
Doni, M.G., see Deana, R. (1014) 203
Drittanti, L., De Boland, A.R. and Boland, R.
Modulation of DNA synthesis in cultured muscle cells by 1,25-dihydroxyvitamin D-3 (1014) 112

Elsing, C., see Stremmel, W. (1014) 108
Epand, R.M., see Boscoboinik, D. (1014) 53

Falbrede, J., see Stremmel, W. (1014) 108
Fisher, R.A., see Kester, M. (1014) 195

Glockner, J.F., see Chan, H.-C. (1014) 141
Goudeau, H., see Goudeau, M. (1014) 14
Goudeau, M., Herve, M. and Goudeau, H.
Spontaneous activation by sea water induces an intracellular pH rise in crab eggs, as evidenced by $^{31}$P-NMR, $H^+$-sensitive microelectrodes and fluorescent probes (1014) 14
Grapengiesser, E., Gylfe, E. and Hellman, B.
Regulation of pH in individual pancreatic $\beta$-cells as evaluated by fluorescence ratio microscopy (1014) 219
Grigorian, G.Y., see Korichneva, I.L. (1014) 173
Guerritore, A., see Burlini, N. (1014) 153
Gylfe, E., see Grapengiesser, E. (1014) 219

Halimi, O., see Chajek-Shaul, T. (1014) 178
Hellman, B., see Grapengiesser, E. (1014) 219
Hembry, R.M., see Thomson, B.M. (1014) 125
Henshaw, E.C., see Montine, K.S. (1014) 282
Herve, M., see Goudeau, M. (1014) 14
Honda, A., Iwai, T. and Mori, Y.
Insulin-like growth factor I (IGF-I) enhances hyaluronic acid synthesis in rabbit pericardium (1014) 305
Hu, H., Sosnovsky, G., Li, S.W., Rao, N.U.M., Morse II, P.D. and Swartz, H.M.
Development of nitroxides for selective localization inside cells (1014) 211
Hurwitz, S., see Rosenberg, J. (1014) 189

Issinger, O.-G., see Schneider, H.R. (1014) 98
Iwai, T., see Honda, A. (1014) 305
